

■ AI TOOLS YOU NEED TO KNOW

The Complete Guide: 100+ AI Tools Explained with Learning Resources

This guide covers every major AI tool category — from chatbots and coding assistants to video generation and workflow automation. Each tool includes a description and official learning resources to help you get started.

■ AI Chatbots

Conversational AI assistants that can answer questions, help with writing, coding, and much more.

■ ChatGPT

OpenAI's flagship chatbot, excellent for writing, coding, analysis and creative tasks.

■ <https://chat.openai.com> | Learn: platform.openai.com/docs

■ Claude

Anthropic's AI assistant known for nuanced, thoughtful responses and strong safety practices.

■ <https://claude.ai> | Learn: docs.anthropic.com

■ DeepSeek

Powerful open-source LLM from China with strong coding and reasoning capabilities.

■ <https://chat.deepseek.com> | Learn: github.com/deepseek-ai

■ Gemini

Google's multimodal AI integrated with Google Workspace and Search.

■ <https://gemini.google.com> | Learn: ai.google.dev

■ Grok

xAI's chatbot with real-time X/Twitter data access and humor-forward personality.

■ <https://grok.x.ai> | Learn: x.ai/grok

■ Meta AI

Meta's free AI assistant built into WhatsApp, Instagram, Messenger, and Facebook.

■ <https://meta.ai> | Learn: ai.meta.com

■ MS Copilot

Microsoft's AI assistant powered by GPT-4, integrated into Windows, Office and Edge.

■ <https://copilot.microsoft.com> | Learn: learn.microsoft.com/copilot

■ Perplexity

AI-powered search engine that gives cited, up-to-date answers to complex questions.

■ <https://perplexity.ai> | Learn: docs.perplexity.ai

■ AI Image Generation

Generate stunning visuals, artwork, and graphics from text prompts using diffusion models.

■ Adobe Firefly

Adobe's ethical AI image generator trained on licensed content, integrated into Creative Cloud.

■ <https://firefly.adobe.com> | Learn: helpx.adobe.com/firefly

■ DALL-E

OpenAI's image generator known for accuracy to text prompts, integrated in ChatGPT.

■ <https://openai.com/dall-e-3> | Learn: platform.openai.com/docs/guides/images

■ FLUX.1

High-quality open-source image model from Black Forest Labs, often beats Midjourney.

■ <https://blackforestlabs.ai> | Learn: github.com/black-forest-labs/flux

■ Ideogram

Specializes in text-in-image generation — logos, posters, typographic art.

■ <https://ideogram.ai> | Learn: docs.ideogram.ai

■ Midjourney

Industry-leading image generator known for artistic, photorealistic quality images.

■ <https://midjourney.com> | Learn: docs.midjourney.com

■ Recraft

Professional vector and image generation tool tailored for designers and brand teams.

■ <https://recraft.ai> | Learn: recraft.ai/docs

■ Stable Diffusion

Open-source image model you can run locally or on cloud with full customization.

■ <https://stability.ai> | Learn: stability.ai/learn, huggingface.co/stabilityai

■ AI Writing Generation

AI writing tools that help create blog posts, marketing copy, essays, and creative content faster.

■ Copy.ai

Marketing-focused writing tool for ad copy, product descriptions, social media content.

■ <https://copy.ai> | Learn: help.copy.ai

■ Grammarly

Grammar checker and writing enhancer with AI suggestions for clarity and tone.

■ <https://grammarly.com> | Learn: support.grammarly.com

■ Jasper

Enterprise AI writer for marketing teams with brand voice and template support.

■ <https://jasper.ai> | Learn: jasper.ai/academy

■ JotBot

AI writing assistant that learns your personal writing style and voice.

■ <https://myjotbot.com> | Learn: myjotbot.com/help

■ Quarkle

AI co-writer for long-form content like novels, scripts and technical writing.

■ <https://quarkle.ai> | Learn: quarkle.ai/docs

■ Quillbot

Paraphrasing and summarization tool to rewrite content and avoid plagiarism.

■ <https://quillbot.com> | Learn: quillbot.com/blog

■ Rytr

Budget-friendly AI writer for blogs, emails, ads and social content.

■ <https://rytr.me> | Learn: rytr.me/guide

■ Sudowrite

AI writing partner built specifically for fiction writers and novelists.

■ <https://sudowrite.com> | Learn: sudowrite.com/guide

■ Writesonic

All-in-one AI content platform with SEO tools, chatbot builder and image generation.

■ <https://writesonic.com> | Learn: writesonic.com/docs

■ AI Presentation

Create professional slide decks in minutes using AI — from outline to designed slides automatically.

■ Beautiful.AI

Smart slide designer that auto-formats and aligns content as you type.

■ <https://beautiful.ai> | Learn: support.beautiful.ai

■ Gamma

Creates polished presentations, docs and webpages from a prompt in seconds.

■ <https://gamma.app> | Learn: help.gamma.app

■ Pitch

Collaborative presentation tool with AI-assisted design and team features.

■ <https://pitch.com> | Learn: help.pitch.com

■ Plus

AI slide generator that works inside Google Slides and PowerPoint.

■ <https://plusai.com> | Learn: plusai.com/resources

■ PopAI

All-in-one AI workspace with instant presentation generation from topics.

■ <https://popai.pro> | Learn: popai.pro/guide

■ Presentation.AI

Generate complete slide decks from a single sentence prompt.

■ <https://presentation.ai> | Learn: presentation.ai/help

■ Slidesgo

Free AI-powered presentation templates and slide generator.

■ <https://slidesgo.com> | Learn: slidesgo.com/slidesgo-school

■ Tome

Narrative-focused AI presentation tool ideal for storytelling and pitches.

■ <https://tome.app> | Learn: tome.app/help

■ AI Scheduling

Automate calendar management, meeting scheduling, and time optimization using AI.

■ Calendly

Automated meeting scheduler that eliminates back-and-forth emails.

■ <https://calendly.com> | Learn: help.calendly.com

■ Clockwise

AI calendar optimizer that protects focus time and reschedules meetings intelligently.

■ <https://getclockwise.com> | Learn: getclockwise.com/help

■ Motion

AI-powered planner that builds your daily schedule automatically based on tasks and priorities.

■ <https://usemotion.com> | Learn: help.usemotion.com

■ Reclaim AI

Smart scheduling tool that auto-blocks time for habits, tasks and meetings.

■ <https://reclaim.ai> | Learn: reclaim.ai/help

■ Taskade

AI project manager and task tracker with collaboration and meeting features.

■ <https://taskade.com> | Learn: help.taskade.com

■ Trevor AI

AI daily planner that helps you time-block tasks from your to-do list.

■ <https://trevorai.com> | Learn: help.trevorai.com

■ AI Spreadsheet

Supercharge spreadsheets with AI to analyze data, generate formulas and automate workflows.

■ Bricks

AI spreadsheet that writes formulas, creates charts and dashboards via chat.

■ <https://bricks.so> | Learn: bricks.so/help

■ Formula Bot

Converts plain English instructions into Excel/Google Sheets formulas instantly.

■ <https://formulabot.com> | Learn: formulabot.com/help

■ Gigasheet

Cloud-based big data spreadsheet that handles millions of rows without slowdowns.

■ <https://gigasheet.com> | Learn: [help.gigasheet.com](https://gigasheet.com/help)

■ Rows AI

Spreadsheet with built-in AI that can fetch live data, summarize and analyze.

■ <https://rows.com> | Learn: rows.com/learn

■ SheetAI

Google Sheets add-on that adds GPT-powered functions directly into your cells.

■ <https://sheetai.app> | Learn: sheetai.app/docs

■ AI Knowledge Management

Capture, organize and retrieve notes, ideas and documents intelligently.

■ Mem

Self-organizing AI workspace that automatically connects and surfaces relevant notes.

■ <https://mem.ai> | Learn: [help.mem.ai](https://mem.ai/help)

■ Notion

All-in-one workspace with AI writing, Q&A, database and project management features.

■ <https://notion.so> | Learn: notion.so/help, notion.so/ai

■ Tetra

AI-powered company wiki and knowledge base for team documentation.

■ <https://tetra.com> | Learn: tetra.com/resources

■ AI Email Assistance

Write, summarize, prioritize and automate your email workflow with AI.

■ Clippit.AI

AI email assistant that drafts replies, summarizes threads and manages inbox.

■ <https://clippit.ai> | Learn: clippit.ai/help

■ Friday

AI productivity assistant that drafts emails and helps you prepare for meetings.

■ <https://friday.app> | Learn: friday.app/resources

■ Mailmaestro

Outlook and Gmail AI copilot for drafting, replying and summarizing emails.

■ <https://mailmaestro.ai> | Learn: mailmaestro.ai/help

■ Shortwave

AI-first email client with smart summaries, drafts and conversation threading.

■ <https://shortwave.com> | Learn: [help.shortwave.com](https://shortwave.com/help)

■ Superhuman

Blazing-fast email client with AI-powered triage, drafts and follow-up reminders.

■ <https://superhuman.com> | Learn: help.superhuman.com

■ AI Workflow Automation

Connect apps and automate repetitive processes without writing code.

■ Integrately

1-click automation tool connecting 1200+ apps with ready-made workflow templates.

■ <https://integrately.com> | Learn: help.integrately.com

■ Make

Visual no-code automation platform for complex multi-step workflows (formerly Integromat).

■ <https://make.com> | Learn: academy.make.com

■ Monday.com

Work OS with AI-powered automations, project tracking and team collaboration.

■ <https://monday.com> | Learn: support.monday.com, monday.com/academy

■ n8n

Open-source self-hosted workflow automation with 350+ integrations.

■ <https://n8n.io> | Learn: docs.n8n.io, community.n8n.io

■ Wrike

AI-powered project management platform with smart automation and workload insights.

■ <https://wrike.com> | Learn: help.wrike.com

■ Zapier

The most popular automation tool connecting 6,000+ apps with AI-enhanced Zaps.

■ <https://zapier.com> | Learn: zapier.com/learn, zapier.com/university

■ AI Graphic Design

Design visuals, UI mockups and brand assets faster with AI assistance.

■ AutoDraw

Google's AI tool that recognizes rough sketches and suggests clean vector icons.

■ <https://autodraw.com> | Learn: support.google.com/autodraw

■ Canva

Popular design platform with AI image generation, background remover and Magic Write.

■ <https://canva.com> | Learn: designschool.canva.com

■ Design.com

AI logo and brand identity generator with full branding kit output.

■ <https://design.com> | Learn: design.com/help

■ Framer

AI-powered web design tool that generates full websites from text prompts.

■ <https://framer.com> | Learn: framer.com/learn

■ Microsoft Designer

Free AI design tool from Microsoft for social posts, graphics and presentations.

■ <https://designer.microsoft.com> | Learn: support.microsoft.com/designer

■ Uizard

AI UI design tool that converts screenshots and sketches into editable wireframes.

■ <https://uizard.io> | Learn: uizard.io/blog, uizard.io/academy

■ AI Data Visualization

Turn raw data into compelling charts, dashboards and visual stories with AI.

■ Deckpilot

AI tool that transforms data and documents into presentation-ready slides.

■ <https://deckpilot.io> | Learn: deckpilot.io/help

■ Flourish

Browser-based data visualization and storytelling tool used by top news organizations.

■ <https://flourish.studio> | Learn: [help.flourish.studio](https://flourish.studio/help), flourish.studio/examples

■ Julius

AI data analyst — upload CSVs and get charts, insights and analysis in chat.

■ <https://julius.ai> | Learn: julius.ai/help

■ Visme

All-in-one visual content creator for infographics, charts, reports and presentations.

■ <https://visme.co> | Learn: visme.co/blog, visme.co/academy

■ Zing Data

Mobile-first AI analytics that lets teams query data using natural language.

■ <https://zingdata.com> | Learn: [help.zingdata.com](https://zingdata.com/help)

■ AI Coding Assistance

Write, review, debug and explain code faster with AI pair programmers.

■ Askcodi

AI code assistant supporting 50+ languages with chat-based code generation and review.

■ <https://askcodi.com> | Learn: askcodi.com/docs

■ Codiga

Real-time code analysis and smart coding assistant for security and quality.

■ <https://codiga.io> | Learn: [doc.codiga.io](https://codiga.io/doc)

■ Cursor

AI-first code editor (fork of VS Code) with powerful inline code generation and chat.

■ <https://cursor.sh> | Learn: cursor.sh/docs, cursor.sh/blog

■ GitHub Copilot

The most widely used AI code assistant, trained on GitHub repos and integrated in VS Code.

■ <https://github.com/features/copilot> | Learn: docs.github.com/copilot

■ Qodo

AI tool for generating tests, reviewing PRs and improving code quality (formerly CodiumAI).

■ <https://qodo.ai> | Learn: docs.qodo.ai

■ Replit

Browser-based IDE with AI coding agent that can build full apps from prompts.

■ <https://replit.com> | Learn: docs.replit.com

■ Tabnine

Privacy-first AI code completion that can be self-hosted for enterprise teams.

■ <https://tabnine.com> | Learn: docs.tabnine.com

■ AI Meeting Notes

Automatically transcribe, summarize and action-item meetings so you can focus on the conversation.

■ Avoma

AI meeting assistant with transcription, summaries, coaching and CRM sync.

■ <https://avoma.com> | Learn: help.avoma.com

■ Equal Time

AI meeting tool that tracks speaking time to ensure equitable participation.

■ <https://equaltime.io> | Learn: equaltime.io/help

■ Fathom

Free AI meeting recorder and note-taker with instant summaries for Zoom, Meet and Teams.

■ <https://fathom.video> | Learn: [help.fathom.video](https://fathom.video/help)

■ Fellow.app

AI meeting notes app with agenda builder, action items and integrations for managers.

■ <https://fellow.app> | Learn: [help.fellow.app](https://fellow.app/help)

■ Fireflies

AI notetaker that records, transcribes and searches all your meetings across platforms.

■ <https://fireflies.ai> | Learn: [guide.fireflies.ai](https://fireflies.ai/guide)

■ Krisp

AI noise-canceling app that removes background noise and takes meeting notes.

■ <https://krisp.ai> | Learn: [help.krisp.ai](https://krisp.ai/help)

■ Otter

Popular AI transcription app for meetings with live captions and real-time summaries.

■ <https://otter.ai> | Learn: [help.otter.ai](https://otter.ai/help)

■ AI Video Generation

Generate, edit and enhance videos using AI — from text prompts to finished clips.

■ Descript

All-in-one video and podcast editor with AI overdub, transcription and screen recording.

■ <https://descript.com> | Learn: [help.descript.com](https://descript.com/help), descript.com/learn

■ Haiper AI

Fast AI video generator for creating short clips and animations from text.

■ <https://haiper.ai> | Learn: haiper.ai/help

■ Invideo AI

Text-to-video platform for creating YouTube, ads and social media videos from scripts.

■ <https://invideo.io> | Learn: [help.invideo.io](https://invideo.io/help), invideo.io/learn

■ Kling

High-quality AI video generator by Kuaishou with cinematic motion and scene control.

■ <https://klingai.com> | Learn: klingai.com/help

■ Krea AI

Real-time AI image and video generator with powerful upscaling and enhancement tools.

■ <https://krea.ai> | Learn: krea.ai/docs

■ LTX Studio

AI film studio for directing AI-generated videos with character consistency.

■ <https://ltx.studio> | Learn: ltx.studio/learn

■ Luma AI

Photorealistic AI video generation (Dream Machine) with smooth motion and scene understanding.

■ <https://lumalabs.ai> | Learn: lumalabs.ai/dream-machine

■ Pika AI

Popular AI video generator that creates and edits videos from images and text.

■ <https://pika.art> | Learn: pika.art/blog

■ Runway

Professional AI video tool with Gen-3 video generation, background removal and more.

■ <https://runwayml.com> | Learn: [help.runwayml.com](https://runwayml.com/help), runwayml.com/academy

■ Sora

OpenAI's text-to-video model capable of creating realistic, complex video scenes.

■ Where to Learn AI — Top Platforms

■ Google AI Essentials

Free course covering AI fundamentals by Google.
